

CAREER SUMMARY

As a highly skilled professional with expertise in design and development, I am passionate about creating user-centric solutions. With a background in Graphic Design and a degree in Information Technology, I have honed my skills to successfully design and develop a diverse range of products.

WORK EXPERIENCE

Lead UI Designer / Developer

Nookal • May 2019 - Current

Responsible for leading the design vision of the Nookal Platform, while streamlining processes and collaborating with developers and clients to implement effective solutions. My experience at Nookal has granted me valuable insights into gathering user needs and enhancing workflows.

UI Designer / Developer

TrademarkVision • December 2017 - May 2019

Designed and developed machine learning software solutions for IP Australia. Led the design process on several projects by engaging with the client and presenting designs and prototypes, whilst ensuring AA compliance.

Product Designer

Ladbrokes • January 2017 - December 2017

Producing wireframes and designs, conducting analysis and developing prototypes to improve the range of Ladbrokes owned websites and apps

Web Developer

International Education Services • Jan 2015 - Nov 2016

Delivering user-centric and engaging digital experiences. I engaged with clients to design and develop a range of products for ABC kids, SBS and the NSW Government.

Web Developer

Stocks Appliances • Jan 2014 - Feb 2015

WordPress website redesign, maintenance and SEO strategies.
